

Project Design Phase

Problem – Solution Fit Template

Date	12 June 2026	Team ID	
Project Name	E-commerce Application (ShopEZ)	Maximum Marks	2 Marks

PROBLEM – SOLUTION FIT TEMPLATE:

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why.

PURPOSE:

- Solve complex problems in a way that fits the state of your customers.
- Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- Sharpen your communication and marketing strategy with the right triggers and messaging.
- Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- Understand the existing situation in order to improve it for your target group.

TEMPLATE:

Define (CS, CC, AS)	1. CUSTOMER SEGMENT(S) CS Who is your customer? i.e. working parents of kids 0-3 years. • Primary Users: Tech-savvy retail consumers, urban working professionals, and students seeking a convenient, multi-category online shopping environment. • Secondary Users: Small to medium merchants and internal warehouse staff managing catalogs, order pipelines, and stock.	6. CUSTOMER CONSTRAINTS CC Which restrictions are customers taking action or context-dependent? i.e. spending power, budget, co-worker network, connection available, devices. • Technical Limitations: Variable mobile network speeds, varying low-to-mid tier smartphone hardware. • Financial & Trust: Strict budget tracking, high hesitance to pre-pay on unfamiliar apps, safety concerns regarding online transactions and data privacy.	5. AVAILABLE SOLUTIONS AS Which solutions are available when they experience the problem? Why search or need to get the job done? What have they tried in the past? What pros & cons do these tools have? i.e. pen and paper to digital solutions. • Existing Options: Conventional physical brick-and-mortar local stores or massive, over-engineered e-commerce conglomerates. • Trade-offs: Local stores suffer from restrictive operating hours and narrow stock varieties. Global platforms possess confusing interfaces and slow local distribution.

Explore (AS, B, CC)	2. JOBS-TO-BE-DONE / PROBLEMS JTBD Which problem(s) do you address for your customers? Which jobs/tasks are your customer trying to solve? i.e. modern alternative (different solutions lines). • Core Functional Jobs: Fast product exploration, secure immediate checkouts, comprehensive order tracking from dispatch to doorstep. • Emotional Jobs: Confidence in product authenticity via transparent user-driven review frameworks and secure financial checkouts.	9. PROBLEM ROOT CAUSE RC What is the inner reason that this problem exists? What is the black story behind the need to do this job? i.e. customers have to do it because of the change is regulations. • Operational Inefficiencies: Unoptimized server-side queries leading to slow page loads, disjointed database designs causing inventory inconsistencies, and poor mobile user interfaces that delay path-to-purchase.	7. BEHAVIOUR B What does your customer do to address the problem and get the job done? i.e. slowly discovered the right solar panel installer, calculate usage and benefit; indirectly associated speed/work time free on volunteering work (i.e. green) • User Action Patterns: Consumers repeatedly open multiple competitive browser tabs to compare pricing, heavily rely on advanced filtering options, and actively consult review sections before finalizing any transaction.
	3. TRIGGERS TR What triggers customers to act? i.e. seeing that neighbour installing some panels, reading a more efficient option items in the news. • External Triggers: Targeted seasonal promo alerts, low inventory notification badges, peer recommendation shares. • Internal Triggers: Urgent domestic shopping needs, instant impulse buying behaviors during limited flash sales.	10. YOUR SOLUTION S If you are working on an existing business, write down your current solution line, or if the canvas is blank, write down your feature list. i.e. build an online application with a solution that keeps blank until you fill with the canvas and will open up a solution within the customer customer limitations, barriers and matches customer behaviour. ShopEZ E-commerce Platform: • Interactive Catalog: Clean product browsing with dynamic search filters and persistent, real-time cart states. • Admin Controls: Streamlined inventory updates, secure sales dashboards, and automated status handling. • Robust Backend: Scalable relational relational architecture mapping items, transactions, and user records securely.	8. CHANNELS OF BEHAVIOUR CH What kind of actions do customers take online? Extract online channels from #7 and use them for customer development. • 8.1 ONLINE: Mobile application marketplaces, responsive web browsers, contextual social commerce links, and email newsletters.
Identify (TR, EM, S)	4. EMOTIONS: BEFORE / AFTER EM How do customers feel when they face a problem or a job and afterwards? i.e. initial, trial, secure vs comfort -> use it in your communication strategy & design. • Before: Stressed by stock uncertainties, overwhelmed by intricate apps, fearful of data breaches. • After: Fully reassured by clear order pipelines and swift, reliable transaction success.		8. CHANNELS OF BEHAVIOUR CH What kind of actions do customers take offline? Extract offline channels from #7 and use them for customer development. • 8.2 OFFLINE: Word-of-mouth physical referrals, in-store catalog advertisements, and package deliveries.
		Create (S, CH)	Deploy
